Case Study

The Accelerated Success of Zenith Solutions

Zenith Solutions a rapidly growing tech startup implemented a revised onboarding program incorporating a basic orientation plus practice test methodology

Their previous program reliant solely on lengthy presentations resulted in consistently low comprehension rates and extended rampup times

By incorporating short modular orientations followed by targeted practice tests

Zenith saw a dramatic improvement

Their data revealed a 25% increase in employee productivity within the first month and a 15% reduction in early attrition

We realized that simply providing information wasn't enough

Explains Sarah Chen Zenith's Head of HR

The practice tests forced employees to actively engage with the material

Identifying knowledge gaps and solidifying their understanding

This proactive approach proved invaluable

The Power of Practice Tests

More than just assessment

Practice tests are not merely evaluation tools

They are crucial learning instruments

They provide immediate feedback allowing employees to identify areas needing further
