shortlisted for the booker prize 2020 the environmental novel of our times lemn sissay booker prize judge the new wilderness is a virtuosic debut brutal and beautiful in equal measure emily st john mandel new york times bestselling author of station eleven margaret atwood meets miranda july in this wildly imaginative debut novel of a mother's battle to save her daughter in a world ravaged by climate change a prescient and suspenseful book from the author of the acclaimed story collection man v nature bea's five year old daughter agnes is slowly wasting away consumed by the smog and pollution of the overdeveloped metropolis that most of the population now calls home if they stay in the city agnes will

die there is only one alternative the wilderness state the last swath of untouched protected land where people have always been forbidden until now bea agnes and eighteen others volunteer to live in the wilderness state guinea pigs in an experiment to see if humans can exist in nature without destroying it living as nomadic hunter gatherers they slowly and painfully learn to survive in an unpredictable dangerous land bickering and battling for power and control as they betray and save one another but as agnes embraces the wild freedom of this new existence bea realizes that saving her daughter s life means losing her in a different way the farther they get from civilization the more their bond is tested in astonishing and heartbreaking ways at once a blazing lament of our contempt for nature and a deeply humane portrayal of motherhood and what it means to be human the new wilderness is an extraordinary novel from a one of a kind literary force

landscape modelling integrates the differing perspectives of the many disciplines that deal with the landscape it is motivated not only by the desire for scientific understanding but also by the real time demands of 21st century postindustrial society which include the twin imperatives of stabilizing damaged ecosystems on the one hand and finding effective ways to use the landscape on the other the discipline has the specific goal of designing and assessing future scenarios of landscape development while not losing sight of its past history both ecological and socio cultural this book encompasses the interrelated disciplines of geography landscape ecology and geoinformatics and by drawing on their theories and methodologies introduces the concept of a living landscape with human action an inseparable part of its evolution it offers researchers and decision makers a number of ideas on how our landscape can best be utilized the content reflects the need for sustainable landscape development at the same time as considering long term continuity as a major condition which enables us to maintain the diversity and multifunctionality of landscapes at regional and macro regional scales employing advanced terminology and methods this book provides specific results especially for scientists and landscape professionals

how it is that the united states the country that cherishes the ideal of private property more than any other in the world has chosen to set aside nearly one third of its land area as public lands now in a fully revised and updated edition covering the first years of the trump administration randall wilson considers this intriguing question tracing the often forgotten ideas of nature that have shaped the evolution of america s public land system the result is a fresh and probing account of the most pressing policy and management challenges facing national parks forests rangelands and wildlife refuges today the author explores the dramatic story of the origins of the public domain including the century long effort to sell off land and the subsequent emergence of a national conservation ideal arguing that we cannot fully understand one type of public land without understanding its relation to the rest of the system he provides in depth accounts of the different types of public lands with chapters on national parks national forests wildlife refuges bureau of land management lands and wilderness areas wilson examines key turning points and major policy debates for each land type including recent trump administration efforts to roll back environmental protections he considers debates ranging from national monument designations and bison management to gas and oil drilling wildfire policy the bark beetle epidemic and the future of roadless and wilderness conservation areas his comprehensive overview offers a chance to rethink our relationship with america s public lands including what it says about the way we relate to and value nature in the united states
