this comprehensive work contains approximately 200 articles concerning all aspects of early childhood education from birth through age 8 written by eminent specialists in the field it is intended not only for researchers but for students parents administrators it encompasses the study of early childhood with all its diverse movements and influences until now these issues were scattered through many classics such as evelyn weber s the kindergarten its encounter with educational thought in america 1969 handbook of research in early childhood 1982 edited by bernard spodek and the ongoing series edited by lillian katz current topics in early childhood education the book is not alphabetically arranged like a traditional encyclopedia it is divided into six chapters the historical and philosophical background of early childhood education sociocultural political and economic influences perspectives on children varied curricula programs and perspectives on educators each chapter begins with an outline of topics to be addressed and an introductory essay that summarizes current and past thought the signed entries are arranged thematically the volume opens with a list of 23 specialists that make up the editorial board and a list of contributors with their affiliations a combined name and subject index follows the text and cross references are provided as needed a few articles such as the froebelian kindergarten are reprinted from the international encyclopedia of education entries are scholarly but readable statistics and charts accompany some entries for instance a chart shows teacher certification requirements for early childhood education in the 50 states the references given at the end of each entry range from older to very recent books journal articles and reports they provide research results on practices like all day

kindergarten home based day care and holding children especially boys back a year to begin kindergarten at age six up to date topics are included for example the article aids and children and references to whole language many entries were written by scholars who have produced enduring works such as beatrice cullinan dorothy strickland and bernard spodek several small flaws mar this otherwise excellent and unique resource largely centering on lack of accessibility for example there are no instructions for use that alert the user to the organization of topics within a chapter according to the outline preceding it in the index substantial treatment of a topic is not distinguished from simple mention of it this could have been rectified by boldface numerals or some other device there are 30 page references under head start for instance while the contributors are given with their affiliations there is no corresponding list of entries written by each of these specialists some authors of entries are not listed either as contributors or editors see for example the entry child abuse written by l r mitchell problems of access aside this is a comprehensive and valuable contribution to the field of early childhood education it should find a place in all libraries that support the study and practice of education public libraries ought to consider making it available to day care providers this book provides astute selection of topics with accurate and clearly written entries by recognized authorities on an issue of great interest booklist

the second edition of this outstanding book introduces students to the principles of early childhood education and care blending theoretical and practical information in an easy to read manner expanded information on children from ages zero to eight is integrated throughout the book infant toddler and afterschool caregivers and teachers will find significantly more information specific to their specialty

in july 2014 the centre for community child health hosted investing in early childhood the future of early childhood education and care in australia seminar which looked at draft report by the productivity commission into childcare and early childhood learning this paper is based on one of the presentations held on the day which presented a summary of relevant evidence to inform discussions including what we know about child development and how children learn and what children need the presentation was not so much about challenging existing models of early childhood education and care in australia as challenging our understanding of the nature and

significance of the early years

in this engaging text author dr cathy nutbrown a leading academic in early childhood education identifies and explains key terms and practices central to the work and study of early childhood in this accessible reference text key concepts in early childhood education and care is a must read for practitioners working with children from birth to the end of the foundation stage and for students following courses in early childhood education and care it details key issues identified in a survey of over 300 practitioners in the field and provides reading and reference sources to assist practitioners and students in identifying further material to support their work

probing the shortcomings of contemporary early years provision whilst offering practical and informed solutions early childhood education redefined at once celebrates the progress made in this field since the publication of the start right report 1994 whilst also calling for further changes to ensure that all children are able to start right to become effective independent learners developing and emphasising the importance of concepts which have become overlooked within modern educational policy and practice yet which remain key to our children s development this book considers how elements such as attachment and love movement and exercise and language and talk may be better integrated into early years practice via the three main vectors of parenting the curriculum and pedagogy from a revised curriculum from birth to seven renamed key stage 1 to a greater emphasis on formative assessment and the promotion of pedagogies including purposeful play planning in the moment and attachment theory chapters build on the principles set out in the start right report and take into consideration the research and reflection developed over the last quarter of a decade reopening a vital debate and challenging governments education providers parents and professionals to re define what young children need to grow develop and learn in our contemporary society this timely response to the start right report is essential reading for all those involved in early years research education and care
