erasmus thorough engagement with the new testament in particular his revision of the vulgate translation aroused much controversy especially in the orthodox roman catholic country of spain erasmus had to fight fierce polemics with several people including two spanish scholars diego lópez zúñiga and sancho carranza de miranda who were both connected to the university of alcalá this quarrel lasted from 1520 to 1524 with a late response by erasmus in 1529 the discussion started as a philological one regarding correct latin but turned into a dogmatic theological fight over the issues of whether the new testament speaks of christ as god whether one can apply the term servus servant to christ and whether the sacramental character of matrimony can be deduced from ephesians 5 32 the six texts in this volume are here translated and annotated for the first time with elucidating notes and an introduction the volume offers wonderful insight into a fierce and fundamental polemic over the new testament

in fantastic worlds like gondor westeros ankh morpork waterdeep and hogsmeade the societies that inhabit them play important roles in capturing the feel of their settings societies create characters and plots provide space for action and reflect history building vibrant and interesting societies is a core element of worldbuilding in the fantasy genres this guide walks the reader through different aspects of societies to help construct fictional worlds with greater ease examples of societies built by numerous authors in the fantasy urban modern fantasy and paranormal romance genres are interwoven to illustrate concepts throughout this book is descriptive and suggestive rather than prescriptive and is intended to inform as well as inspire the worldbuilder

this book explores suicide prevention perspectives from around the world considering both professionals points of view as well as first person accounts from suicidal individuals scholars around the globe have puzzled over what makes a person suicidal and what is in the minds of those individuals who die by suicide most often the focus is not on the motives for suicide nor on the phenomenology of this act but on what is found from small cohorts of suicidal individuals this book offers a tentative synthesis of a complex phenomenon and sheds some light on models of suicide that are less frequently encountered in the literature written by international experts it makes a valuable contribution to the field of suicidology that appeals to a wide readership from mental health professionals to researchers in suicidology and students
